Zishuo Zhao

zishuoz2@illinois.edu, wiku30@mit.edu

ISE, University of Illinois Urbana-Champaign

1 Background

• 2023/09 - 2024/08 Visiting Student, Institute for Data Systems and Society,

Massachusetts Institute of Technology

Advisor: David Simchi-Levi

• 2021/01 - now PhD student, Department of Industrial & Enterprise Systems Engineering,

University of Illinois Urbana-Champaign Research Area: Operations Research

Advisor: Yuan Zhou

Expected Graduation: Summer 2025

- 2020/08 2021/01 Research Assistant, Haihua Institute for Frontier Information Technology
- 2016/05 2020/07 Undergraduate student, Yao Class, Institute for Interdisciplinary Information Sciences, Tsinghua University
- 2015/08 2016/05 Undergraduate student, Department of Computer Science and Technology, Tsinghua University

2 Research Interests

I am a fourth-year PhD student in UIUC, majoring in operations research, and currently doing research in mechanism design. In general, my research interests span a wide scope related to algorithm and mechanism design for emerging applications in internet economics, including blockchain systems, e-commerce, ridesharing platforms and so on. I am also interested in data-driven mechanism design based on statistical/online learning. On a very high level, my (starry-eyed) dream for research lies in the following fields, which are also the two projects I am most actively working on:

- AI for mechanism design: e.g., dynamic auction design based on online learning;
- Mechanism design for AI: e.g., incentive-secure design for proof-of-learning mechanisms in blockchain systems.

3 Research

3.1 Publications

Personalized Pricing with Group Fairness Constraint

Xin Chen*, Zexing Xu*, Zishuo Zhao*, Yuan Zhou*. (alphabetical order)

ACM Conference on Fairness, Accountability, and Transparency (ACM FAccT 2023)

Bayesian Mechanism Design for Blockchain Transaction Fee Allocation¹ [Link]

Xi Chen*, David Simchi-Levi*, Zishuo Zhao*, Yuan Zhou*. (alphabetical order)

Best Paper Award, NeurIPS Workshop on Decentralization and Trustworthy Machine Learning in Web3, 2022.

Crypto Economics Security Conference (CESC 2022).

Invited to INFORMS Annual Meeting 2022.

Dynamic Car Dispatching and Pricing: Revenue and Fairness for Ridesharing Platforms [Link]

Zishuo Zhao, Xi Chen, Xuefeng Zhang, Yuan Zhou

International Joint Conference on Artificial Intelligence (IJCAI 2022), Long Oral (3.75%).

Invited to INFORMS Annual Meeting 2021.

ClusterSLAM: A SLAM Backend for Simultaneous Rigid Body Clustering and Motion Estimation [Link]

Jiahui Huang, Sheng Yang, Zishuo Zhao, Yukun Lai, Shi-Min Hu.

International Conference on Computer Vision (ICCV 2019).

3.2 Working Projects

Incentive Secure PoUW Design: Economic and Energy Efficiency for Blockchain Systems

Zishuo Zhao, Zhixuan Fang, Xuechao Wang, Yuan Zhou

Presented on INFORMS Annual Meeting 2023.

4 Academic Activities

• Facilitator in section Revenue & Pricing, INFORMS Annual Meeting 2021

5 Awards

- Best Paper Award, NeurIPS Workshop on Decentralization and Trustworthy Machine Learning in Web3, 2022
- 12th place in 2nd THUCTF Information Security Contest in Tsinghua University, 2020
- 12th place in 24th Artificial Intelligence Programming Contest in Tsinghua University, 2020
- Scholarship for Arts Excellence in Tsinghua University, 2018
- Xuetang Scholarship in Tsinghua University, 2016-2020
- 15th place in 20th Artificial Intelligence Programming Contest in Tsinghua University, 2016.
- Second Prize in Chinese Mathematical Olympiad (CMO), 2014
- First Prize in National Olympiad in Informatics in Provinces (NOIP), 2013

¹A preliminary version of this research has the title "Bayesian-Nash-Incentive-Compatible Mechanism for Blockchain Transaction Fee Allocation"

6 Miscellaneous

6.1 Languages

- Mandarin Chinese (native)
- English (fluent)

6.2 Extracurricular Activities

- I developed two Reverse challenges in the Capture-The-Flag contest TQLCTF 2022.
- I was invited to the Alumni Forum for the 10th Anniversary of IIIS, Tsinghua University in 2021.

6.3 Coding Skills

- Mainly using C++, MATLAB and Mathematica, also with command of Python, Java, PHP.
- With some knowledge in Verilog HDL and assembly language.
- Open to learn new programming languages when in need.

(Updated on Jan 30, 2024)
